The legalese may be beyond my understanding, sure.

In my experience, Uber provides a safe, reliable alternative to drinking and driving that South Carolina desperately needs.

I think it would be a shame to not have Uber in South Carolina. Please add my name in favor of Uber to whatever list you have.

I am a married mother of a 10 month old son and don't take safety lightly. That's why I value uber and its presence in South Carolina. I was pleasantly surprised when visiting Greenville recently that Uber was available, given that it has been my reliable source of transportation in California. I took four different rides, each one incredibly pleasant. I even rode with a driver who as a commercial driver recently received an award for going 1,000,000 miles without an accident or ticket. I used Uber when many of the other folks at the bar were driving home drunk, because they can't afford cabs and taxi service takes too long. I am also a law student as well as a Ph.D. student, and support Uber from a legal and academic point of view.

Thank you,
Brittany Arsiniega

This is a wonderful service that I have used all over this country and never had any issues with it unlike the regulated taxi cab companies. I was recently in Charleston and had the occasion to use them three times as well as members of my 100 person party.

Don't make them stop!
